Doug secured DNR aeration permits for both lakes should be need to aerate this winter

Discussed next steps for Limnopro

We should continue nutrient testing in north Mink and northwest Mink (inflow 1 and 2 on Limnopro's map from the October meeting) due to farm fields proximity to lake

What do we do if one or both of these inflow does show a large amount of phosphorus coming in? Can Alicia at WCSWD help?

Discussed the need to battle the phosphorus already in the lake. Need more flow and Oxygen.

Fountain? More homeowners with Aqua Thrusters?

Cancelled the 12/17 meeting.

Next meeting January 21, 2023 at 8:30am at Corinna Township Hall. Doug to ask Dan from Limnopro to join
